“Non-critical” PNPs, as defined in 44 CFR §206.221(e)(7), *may immediately apply for FEMA **emergency work** assistance.*

“Non-critical” PNP facilities requesting reimbursement for **permanent work** costs must apply for a disaster loan from the SBA. This should be done simultaneously with submitting a Request for Public Assistance (RPA) to the State for disaster assistance.

The SBA loan application process for “non-critical” PNP facilities will result in one of four outcomes:

- A. The PNP is declined for an SBA loan. The PNP may then apply for FEMA assistance.
- B. The PNP is approved for an SBA loan and the loan fully covers eligible damages from the disaster event. No assistance from FEMA is available.
- C. The PNP is approved for an SBA loan and the maximum SBA loan for which the facility is eligible does not fully cover eligible damages. The excess damages are eligible for FEMA assistance.
- D. The PNP is approved for an SBA loan, but does not accept the loan. The amount of FEMA assistance will be reduced by the amount of the approved SBA loan.
